CORE COMPETENCIES

- React.js & Next.js Development
- React Native & Expo
- TypeScript & JavaScript
- Enterprise Dashboard Development
- REST API Integration
- UI/UX Implementation from Figma
- Performance Optimization
- Responsive & Mobile-First Design

PROFILE

Frontend & React Native Developer with 3+ years of experience building scalable web and mobile applications using **React.js, Next.js, React Native, TypeScript, and JavaScript**. Experienced in developing AI-driven platforms, interactive dashboards, and responsive user interfaces while integrating REST APIs and translating Figma designs into high-quality products. Passionate about writing clean, maintainable code, optimizing performance, and delivering exceptional user experiences within collaborative Agile teams.

EDUCATION

Bachelor's Degree in Mechatronics Engineering

EXPERIENCE

Frontend Developer

TruePositive Company | Remote | Oct 2025 – Present

- Developed reusable UI components adopted across multiple platform modules, improving development consistency and maintainability.
- Build scalable and reusable front-end applications using React.js, TypeScript, and Tailwind CSS.
- Design responsive and accessible user interfaces with a strong focus on performance and usability.
- Integrate REST APIs and collaborate closely with backend engineers to deliver seamless functionality.
- Contribute to reusable UI components and maintain clean, scalable code within an Agile development environment.

Tech Stack: React.js, TypeScript, Tailwind CSS, REST APIs, Git, Agile

Frontend Developer

Oona Company | Remote | Mar 2025 – Jun 2025

- Developed a dynamic dashboard using React.js, Redux Toolkit, and React DnD with drag-and-drop widget management.
- Implemented REST API integrations, real-time filtering, and persistent dashboard state.
- Built and maintained two dashboard versions, improving usability and overall user experience.
- Converted Figma designs into responsive, production-ready interfaces.
- Deployed live demos using Vite and collaborated with stakeholders throughout development.

Tech Stack: React.js, Redux Toolkit, React DnD, Vite, REST APIs, Figma

Frontend Developer

Losyro Company | Remote | 2023 – 2025

- Designed and developed an internal dashboard for company culture management and employee feedback.
- Translated Figma designs into responsive, accessible, and pixel-perfect user interfaces.
- Built reusable React components and implemented dynamic admin panels.
- Integrated API-driven data rendering and optimized application performance.
- Worked closely with stakeholders to deliver requested features and continuous UI improvements.

Tech Stack: React.js, React Router, Tailwind CSS, REST APIs, Figma

Frontend Developer (Freelance)

Various Clients | Remote | 2023 – Present

- Delivered web applications including chatbots, landing pages, admin dashboards, and business websites.
- Built reusable React components and implemented CRUD functionality.
- Developed responsive interfaces using Tailwind CSS, Bootstrap, HTML, CSS, and JavaScript.
- Created custom chatbot solutions and interactive business tools for multiple clients.
- Collaborated directly with clients to transform business requirements into production-ready applications.

Tech Stack: React.js, JavaScript, HTML, CSS, Tailwind CSS, Bootstrap, Node.js

Head of Production

Lio – Sindyan Company for Food Manufacturing | On-site | 2021 – 2023

- Supervised daily production operations while maintaining quality and food safety standards.
- Coordinated cross-functional teams to improve production efficiency and workflow.
- Managed operational processes, planning, and problem-solving in a fast-paced manufacturing environment.

Experience Certificate

SKILLS

Programming Languages

- JavaScript
- TypeScript
- HTML
- CSS

Frontend

- React
- Next.js
- React Native
- Expo

Styling

- Tailwind
- Bootstrap

API & State Management

- REST APIs
- React Query
- Redux Toolkit
- CRUD Operations

Tools

- Git
- GitHub
- Vite
- Figma
- Postman

FEATURED PROJECTS

Social Media Listener (AI Platform)

Contributed to an enterprise AI-powered social media intelligence platform featuring sentiment analysis, competitor monitoring, geo insights, influencer analytics, real-time dashboards, and automated reporting. Developed responsive interfaces, reusable components, interactive data visualizations, and integrated REST APIs for large-scale analytical workflows.

Tech Stack: Next.js • React.js • TypeScript • Tailwind CSS • REST APIs • Chart.js • React Query

SuperCars Virtual Garage Mobile

Developed a cross-platform mobile application showcasing luxury vehicles with secure authentication, responsive layouts, touch-optimized navigation, and smooth native animations.

Tech Stack: React Native • Expo • TypeScript • React Navigation

MTN DNO Premium Onboarding Redesign

Redesigned the onboarding experience for MTN Premium, transforming complex identity verification into a modern mobile-first user journey. Improved usability, visual hierarchy, and user experience by creating premium UI screens, refining onboarding flows, and implementing responsive React interfaces based on Figma designs.

Tech Stack: React.js • TypeScript • Tailwind CSS • Figma • UI/UX Design

>>> live demo

SuperCars Virtual Garage (Web)

Designed and developed a premium luxury car showcase featuring immersive animations, responsive layouts, and modern UI interactions. Focused on high-performance rendering and polished user experiences inspired by luxury automotive brands.

Tech Stack: React.js • Vite • Framer Motion • CSS

Oona Dashboard

Developed an enterprise dashboard with drag-and-drop widgets, dynamic layouts, Redux state management, REST API integration, and responsive user interfaces translated from Figma designs.

Tech Stack: React.js • Redux Toolkit • React DnD • Vite • REST APIs

Work Culture Dashboard

Designed and developed an internal dashboard for employee engagement and company culture management. Implemented reusable React components, API integration, responsive layouts, and performance optimizations.

Tech Stack: React.js • React Router • Tailwind CSS • REST APIs

DigiCard

Built a bilingual digital voucher platform featuring secure OTP authentication, shopping cart functionality, live pricing, responsive design, and a complete checkout workflow.

Tech Stack: React.js • Redux Toolkit • REST APIs • Tailwind CSS

Additional projects, open-source work, and technical experiments are available on my GitHub and portfolio.
